

Heart Disease Cured.

WHEN a well known minister after suffering for years with heart disease, is cured, it is not surprising that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition. Recently other afflictions came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative. Nervine and its effect was simply wonderful. I heartily commend your remedies." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. DON'T.

The United States postal department has sent Postmaster Price quite a bunch of circulars reading as follows:

"Don't mail your letter or valuable package without having your own address written or printed upon the upper left hand corner."

"This will insure its return to you if not delivered, and will prevent its being sent to and opened at the Dead Letter office."

The REPUBLICAN will furnish you envelopes with your return notice printed on them cheaper than you buy the envelopes in small quantities. Call at the office and see samples.

The Remains

Of the late Bruce Ewing, who died at Dallas, Texas, arrived here last evening on No. 2 by way of the B. & O. and were accompanied by his brother Abe Ewing and wife who were joined at St. Louis by T. S. Blish, and were taken to the home of his mother. They were met at the depot by an immense crowd of sorrowing friends and relatives. The funeral took place at 2 o'clock this afternoon from the residence. The religious exercises were conducted by Rev. E. C. Trimble, of the Presbyterian church of Louisville. Interment in Riverview.

MARRIED.

Charles Carson and Miss Eliza Cain, both of the most popular people, of near Elizabethtown, were united in marriage at 9 o'clock Saturday night at the bride's home with Rev. F. H. Tormohlen tying the nuptial knot. This was Mr. Tormohlen's first job of the kind and it is said to have been a complete success.

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested any more than animals can. The Mount Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be eaten with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every suffering dyspeptic make a trial of it. Any druggist can supply it. Laxol is the best medicine for children. Doctors recommend it place of Castor Oil.

Card of Thanks.

We desire to sincerely thank all friends of the family who assisted in the last rites connected with the burial of our daughter Mattie. We wish especially to thank the pall bearers, six young ladies and six young men, and all her young friends who expressed their sympathy by their many acts of kindness.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Try it once. 50c and \$1.00 per bottle at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

Death of Mrs. Seulke.

We are again called upon to state that the grim messenger has removed from our midst one of our most esteemed ladies in the person of Mrs. Henry Seulke, who breathed her last at 11 o'clock forenoon, March 22, 1897. She has been seriously indisposed with the disease for some two years but was not so dangerous till last Wednesday when she was compelled to take her to take her bed and had not been up since. Everything was done for her relief but of no avail. Mrs. Seulke was born in Germany, June 6, 1825, which made her age seventy-one years, nine months and sixteen days at the time of her death. She came to this country in an early day. She was an affectionate mother whose place can not be filled. A husband and five sons, William H., Louis, Fred, Gus and George and Miss Dorr, the latter at home, survive, who have the sincere sympathy of their many friends. She was an earnest member of the St. Paul's Protestant church.

DIED.

Miss Daisy Anthony died at 5 o'clock Saturday evening, March 20, 1897, with consumption after a lingering illness. Her parents have the sincerest sympathy of all.

Miss Nannie Weimer, died at noon Sunday March 21, 1897, with dropsy and asthma, at the home of her sister, Mrs. John Heins. She has been a patient sufferer. Her age was fifty-eight years.

This morning L. S. Woods received a telegram announcing the death of his brother, Geo. W. Woods, at Indianapolis. The deceased was born April 29, 1857. He was a printer by trade and worked in many of the larger offices in different parts of the country. He had many friends and acquaintances here. The remains will be brought here for interment.

POLITICAL BREVITIES.

Samuel P. Yenna has been recommended for postmaster at Shoals.

Rumors are renewed that Governor Brady will resign after the special session of the legislature is over whether he is elected United States Senator or not.

It is currently reported that Judge David L. Henry, of Terre Haute, will be appointed revenue collector for the western Indiana district.

Senator Fairbanks has announced that he will appoint A. E. Nowlin, of Lawrenceburg, for internal revenue collector for the eastern district of Indiana.

It seems probable that the postmaster at Madison may be moved before his term expires, on charges preferred by fellow democrats during the heat of the campaign.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottle free at W. F. Peter's, successor to J. H. Andrews & Co., Drug Store.

ODD CHARACTERS.

Some of the People Who Seek Fame Through Uncommon Channels.

"I think if all the cranks in this country were corralled," remarked the clerk in the treasury department, "and put under a shed somewhere it would require one bigger than all the buildings at the World's fair."

"Would there really be anybody to do the corraling?" inquired a pessimistic old party, who thinks there is none good—no, not one.

"As I was saying," continued the treasury clerk, "it would take the biggest shed on earth, and still there is a new kind. This time it is a man or woman who has been sending in 10 cents at a time as a contribution to the conscience fund, with a name signed in full, and there is no such name on the treasury books and never has been. I suppose it is merely some crank who thinks he or she will get that name in the papers and have that much fame out of it."

"That's silly enough," chipped in a postoffice inspector, "but I heard of the oddest chap on my last trip down south. You may not know, or, if you do, don't pay much attention to the fact, that there is a fine of \$10 for sending written matter through the mails under any name except 2 cents an ounce. Very likely you have sent enough stuff written on papers, books and so on to bankrupt you if you had the fines to pay, but Uncle Sam is easy, and I don't know of a case where anybody ever had to pay the fine. In this instance a man came into a certain office down south and gave the postmaster \$500, being the amount of fines he owed the government for violation of postage laws as far as he could recall them. He was a young man, and he stated that he had violated the law while in love with a girl to whom he sent papers and books occasionally, and, though he wrote to her every day, he couldn't let the others go without writing something on them. The postmaster didn't know how to act in the premises, and just what he would have done finally nobody knows, but the next day the young man's father came to the postmaster and told him that his son had been jailed by his sweetheart, and it had crazed him. This was an explanation which satisfied the official, and the money was returned."

"Ugh!" grunted the pessimistic old party, in no way affected by the pathos of the little story. "Only a crazy person or an idiot would ever think of settling square with Uncle Sam for a little bunko game like that."—Washington Star.

MARCH HAS ITS VIOLETS.

And There Is a Bright and Cheerful Side to Everything.

Edward W. Bok, under the title of "The Odor of Spring Violets," writes most forcibly in "The Ladies' Home Journal" on the theme that there is a bright side to everything—even to March, the most disagreeable month of the year, for it has its spring violets. "It is true," he writes, "that it is difficult sometimes to see the bright side of sorrow, sickness and death. And yet there is distinctly a bright side. No sorrow comes to us without a reason. We never know our friends until sorrow or illness comes to us. We never know what loving kindness and thoughtfulness mean until we stand in need of them, and our hearts seem to beat against the walls of a cold, merciless world. We learn something from every grief and from each pain which comes to us. We learn to distinguish between friends, and what more priceless possession is there in the whole range of knowledge than this? What develops us more than trouble? Virtues of heart, which we never dreamed of as existing within us, reveal themselves when we are sorely tried. That is why sorrow and trials are given us—not to give pain, but to develop us, to better equip us for something unknown which lies in the future, and which we could not meet or understand unless we had first gone through certain experiences.

"We are far too apt to regard actual blessings as calamities, to look upon the dark side of things. Some sorrow comes to us, and we rebel. It never occurs to us that perhaps we need the experience which sorrow alone can give. Illness comes, and we fret. But we cannot always be well. Ailments are very often given to us to make our appreciation of good health the keener. God has an aim, a direct purpose, in everything he does. His blessings come in different forms. Nor are these forms always such as we would choose. Lessons can be more effectively taught in innumerable cases through sorrow than through pleasure. We should never know what a pure, beautiful color white is if we did not have black to bring out the contrast. When sorrow comes, we rebel and refuse to recognize it for what it is often is—a blessing in disguise. We cannot always have it June. There must be March. Yet March has its spring violets."

HOBBS

Challenge to the Citizens of Seymour Which Appeared in this Paper Saturday Creates

TREMENDOUS SENSATION.

The Public Seem Thoroughly Aroused.

A General Eagerness to Know What the Outcome of this Affair Will be is Plainly Noticeable Amongst Many of Our Readers.

JULIUS HOBBS, M. D.

As a result of the announcement made by this paper Saturday, that a free package of Dr. Hobbs' Spargus Kidney Pills would be given away to any of our readers who would call on Wm. F. Peter, successor to J. H. Andrews & Co., Druggist and Apothecary, Seymour, Ind., tomorrow, an intense interest has been awakened in this distribution.

A large number of people called Saturday evening and this morning to make inquiries about the free samples of this wonderful medicine to be given away tomorrow, which shows what general interest is taken by the public in the test now being given by Dr. Hobbs of his discovery for the cure of all kidney ailments.

Much to our gratification, a number of lady callers have shown an unusual interest in this great distribution. "Can it be possible," said a man who called Saturday, "that the advancement in the science of medicine has at last reached a climax for poor sufferers like myself."

"I am going to say one thing at any rate. The owners of this medicine certainly have faith in it, and they are going about it in an honest straightforward manner. Just this thing alone gives me confidence and strong hope that I shall again be a strong man."

Another caller Saturday—a lady—said: "I live several miles away from Seymour but I am going to get a sample of this kidney medicine for my husband. He has been a sufferer from kidney diseases for many years."

"We have spent thousands of dollars with the best doctors we could hear of North and South, but at the best he has

received only temporary relief."

"Dr. Hobbs' announcement that he has made a discovery which will cure and build up the kidneys, and his offer to prove it by the giving away of a free package, is quite a novelty to me, as heretofore it has been 'pay' whether the medicine did any good or not."

"We are going to give this remedy a good fair trial and I hope that others, suffering as my husband is, will hear of it and accept the kind and generous offer which Dr. Hobbs makes."

It is expected that tomorrow there will be a great rush of applicants for a free package of Dr. Hobbs' Spargus Kidney Pills. But no matter what the demand is Wm. F. Peter, successor to J. H. Andrews & Co., Druggist and Apothecary, is well prepared to meet it.

"All those living in Seymour or any town outside who apply at our store tomorrow in person or write for a sample will be welcome, and not only a

FREE SAMPLE BOX

of this wonderful medicine will be given or sent to each applicant, but also Dr. Hobbs' little book, which in a concise way, treats on kidney troubles.

This great free distribution ends to-morrow evening at 9 o'clock, so that all who wish to avail themselves of Dr. Hobbs' generous offer should call to-morrow or write, or they will miss the opportunity.

Dangers of the Grip.

The greatest danger from lagrippe is of its resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 5 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

The Millionaire's Eagle Eye.

Another story illustrative of the daily life of a Chicago millionaire may help to explain why some people have more money than others.

This millionaire invited a visitor from another city to meet him at a certain hour and accompany him to the stockyards, where he has large interests. The millionaire rode up in a sidebat buggy somewhat the worse for mud and wear, drawn by a shaggy but active horse. He explained that before starting for the yards he would have to go to one of the large banks downtown, as he was on the board which regulated loans, and he had to pass on an application for a loan of \$500,000.

They stopped in front of the bank, and the rich man hurried in and remained several minutes. He came out on a run, and they started rattlingly bang for the stockyards and Packingtown.

When they arrived and were entering the packing house, they saw an old man sorting out into barrels a heap of bones and fatty remnants. The bones were trimmed and put into one barrel and the flesh and fat into another barrel. The millionaire owner of the place walked over to the workman and began asking questions. Then he drew off his coat, rolled back his shirt sleeves to the shoulder and began rummaging among the bones. He found several which had not been properly stripped, and the workman received a scolding which he will remember all his life.

The stripping of those bones was just as important as the loaning of \$500,000. —Chicago Record.

Riding on a Sextuplet.

Says the Washington Times: "The sensation of riding on a sextuplet or quintuplet when pacing a man for record is regarded as decidedly novel. J. F. Starbuck, the professional rider who accompanied P. J. Berlo on his southern record trip to act as pacesetter, was recently asked what he thought of pacing on these styles of wheels. He replied: 'Think? Why, we never have time to think. All you know is that you have got to pedal for all you are worth and swing with the crowd. If you don't, you are liable to be thrown off. The man in front has a hard position to hold, as he is absolutely unable to times to see the track, owing to the air pressure and the speed at which the machine is traveling. We had a fall once and were so nervous for days that we were guided unmercifully by other riders.'"

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity which being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. BRADLEY WILL RESIGN.
Said to Have Told Friends He Would Quit His Office Shortly.

FRANKFORT, Ky., March 22.—Governor Bradley told two friends in his office day before yesterday, that no matter what was the result of the present senatorial fight, he would resign the office of governor immediately after the expiration of the present extra session. He last night declined to discuss the matter, but told another friend the same thing in his office yesterday afternoon. That such is his intention has been known to friends for several weeks, but that he did not want to authorize the statement as yet is emphasized by his evident annoyance, that what he confided to friends has become public. However, the few politicians who have heard the story say that the governor's intention having become public now may result in making more probable his election over Hunter on Tuesday or Wednesday.

Prominent politicians from all over the state arrived here last night to take part in the fight for and against Hunter, the nominee, and Bradley who refuses to be deposed by even the influence of the national administration.

LOCOMOTIVE BOILER EXPLODES.
Engineer Killed Two Hundred Feet Through the Air.

CHICAGO, March 22.—The boiler of the locomotive which was hauling the Chicago and Boston special on the Lake Shore and Michigan Southern railroad blew up yesterday, instantly killing the engineer and fireman and completely demolishing the engine. The engine was hurled 300 feet into the air through a network of telegraph wires that were stretched along the tracks and had his right leg torn off. The fireman was thrown against a cattle car with such force as to almost break every bone in his body. None of the remainder of the train crew nor any of the passengers were injured.

CANEA BLOCKADED.
Pillaging Turkish Soldiers Caught in the Act—One Killed.

CANEA, Crete, March 22.—The situation in Crete may be described as of expectation. Yesterday the fact that the blockade had formally begun was generally communicated from Canea, to all points in the island, in the telegraphic circuit. Pillaging still continues. Three Turkish soldiers, who were caught in the act of pillaging at Halepa, fired on the gendarmes who returned the fire, killing one of them.

James R. Mathews' Remains.
JACKSONVILLE, Ills., March 22.—The remains of James R. Mathews were brought here yesterday from Cincinnati, where he died in a hospital Friday. He was 53 years old and was assistant postmaster here under Harrison.

Died in the Canary Islands.
LONDON, March 22.—John Biddulph Martin, who married Mrs. Victoria Chaffin Woodhull, died on Saturday at Las Palmas, in the Canary Islands.

NEWPORT'S HANGING

Incidents of the Murderers' Trip to the Gallows.

WALKED FIRMLY TO THEIR DOOM.

Jackson Faces the Crowd of Two Hundred Spectators Unflinchingly, but Walling Shows Nervousness—Proclaim Their Innocence From the Death Trap—Jackson's Body Cremated.

NEWPORT, Ky., March 22.—The execution of Scott Jackson and Alonzo Walling was still the theme of conversation here yesterday. Men stood on the street corners with papers in hand discussing every move made by the prisoners, the sheriff and all others who took any part in the tragic event.

Last Hours of the Doomed Men.
NEWPORT, Ky., March 22.—The prisoners arose early, ate their breakfast, and Rev. Dr. Lee was ushered into the room where the condemned men were spending their last few hours singing and joking. Jackson and Walling appeared at the barred windows and looked down upon the crowd. A reporter remarked to Walling that he was "game" and the latter replied: "Why shouldn't I be?" The prisoners then withdrew from the window, and it was the last the crowd saw of them. They were arrayed in black cheviot suits procured for them by Sheriff Plummer. Hangman Fourth and Sheriff Plummer tested the gallows, about 8:30, the former coiling the nooses and slipping them backward and forward to make sure they would work without friction. The sheriff stood upon the fatal traps to test their strength and then tried the lever to see that it worked all right. Everything was complete.

Jackson Plays For Time.
Sheriff Plummer proceeded to the jail and told the men to get ready for the scaffold. Jackson began crying. He called Rev. Lee and Walling to face him and then said to Sheriff Plummer: "I want to say before you all that I do not believe Lon Walling is guilty of premeditated murder."

Rev. Lee said: "What do you mean, Scott?"
"I mean just what I say, I do not believe Lon Walling is guilty of premeditated murder."

Jackson then broke down. Colonel Washington was sent for. He asked the sheriff to telegraph Bradley. Plummer thought it would do no good unless Jackson would give details, but this he would not do.

Finally the message was sent, the governor replying if Jackson would make the statement on the gallows that Walling was innocent to hang Jackson and suspend the sentence of Walling, otherwise to proceed with the double execution.

Judge Helm was sent for by the sheriff, when he came he talked with the condemned man and told him if he allowed Walling to hang knowing he was innocent he would have another murder to answer for. He asked the sheriff to telegraph Bradley. Plummer thought it would do no good unless Jackson would give details, but this he would not do.

DEAD MARCH.

Both Men Mount the Scaffold With Firm Steps.

NEWPORT, Ky., March 22.—After Sheriff Plummer had announced from the scaffold that the hour had arrived for the execution there was painful silence for a few minutes, when it was announced that the prisoners had left the jail. From the cells the procession passed through the kitchen to the scaffold inclosure. Suddenly the gate was thrown open and in walked what seemed a funeral procession, with the exception that there was not a coffin or a hearse to be seen. First came Sheriff Plummer. At his side walked Executioner Fourth. Rev. Mr. Lee, with Bible and hymn in hand and head bowed, followed the sheriff. Immediately behind him walked Jackson and Walling. Already they wore the black caps. So jauntily did these awful articles of attire set upon their heads that they might have been mistaken for young boish, clean shaven students in their college dress, had they worn robes instead of the plain black business suits which had been provided for their death. There was not a tremor in the carriage or countenance of either man as he ascended the scaffold and faced the crowd which gazed up into their faces. Both were pale, but seemed fearless and determined.

Walling Becomes Nervous.
It was quickly apparent that Walling would not last long if there was great delay in the execution. He waved forward and then backward until his shoes squeaked with the move-

His Prosecution to Be Pushed in the United States Court.
CINCINNATI, March 22.—There is to be another chapter in the murder of Pearl Bryan. Since the execution of Scott Jackson and Alonzo Walling the friends of these men have determined to prosecute William Wood, a cousin of Pearl Bryan, who was charged by Jackson with her seduction and getting Jackson and Walling to help him out of the trouble. Among the effects of the dead men are letters from Wood asking Jackson for medicines and afterward to arrange for abortion. These letters have been turned over to Postal Inspector Salmon who will present them for use before the federal grand jury for the purpose of indicting and trying Wood for such use of the mails. Wood was indicted over a year ago on the charge of abetting an abortion. Wood has not been at his home for months and his present whereabouts are unknown. It is proposed to get the secret service of the government after him. The Bryan family are also wanting Wood prosecuted and have been pursuing him.

Mrs. Jackson Arrives Home.
GREENCASTLE, Ind., March 22.—Mrs. Jackson, mother of the late Scott Jackson, arrived in Greencastle yesterday on a Big Four train. She was accompanied by her daughter, Mrs. Post, and her daughter Ruth. They were met at the depot by Professor Post and were driven directly to their homes in a closed carriage. Their arrival was up-

known to many and they were met at their homes by only a friend or two. The ladies wore worn out by the exciting scenes and horrifying incidents of the past weeks, with their dramatic climax Saturday.

TYPHOONS.
American Clipper T. F. Oakes Encounter Two of Them.
New York, March 22.—The long-overdue clipper ship T. F. Oakes, which left Hong Kong on July 4, 239 days ago, with a general cargo for this port, and which had been given up as lost, was towed into port this morning by the British tank steamer Kasbek, Captain Muir, which picked her up last Thursday. The crew were sick with scurvy and six had died. The Oakes had encountered two typhoons, the second one lasting 24 days, and the vessel was badly disabled when picked up.

FED BROKEN GLASS.
Alleged Attempt of An Unnatural Mother to Kill Children.
HOBKINSVILLE, Ky., March 22.—Stephen Rogers and Mrs. Mary Brooks, wife of William Brooks, a neighbor, have disappeared from their homes in the southern portion of this county, and officers of the law are after them. It is claimed their children were given a quantity of broken glass and quicksilver in the food which they ate, and from the effects of which, it is feared, several will die. The couple left no clue to their whereabouts.

MURDERED FIVE.
Husband Shoots Down a Whole Family and Kills Himself.
RICHMOND, Mo., March 22.—A tragedy resulting in the death of five members of one family is reported from Orrick, a small village 35 miles south of here. B. Rainwater, a farmer, shot and killed his wife, his mother-in-law, Mrs. William Artman; his brother-in-law, James Thurman, and his little stepdaughter, Edith Geny. Then, after so nearly exterminating a whole family, the murderer blew off the top of his own head, dying instantly. Jealousy was the cause.

Ex-President Cleveland's Sunday.
PRINCETON, N. J., March 22.—Ex-President Cleveland's first Sunday in Princeton was spent in quiet. Mr. and Mrs. Cleveland attended morning service at the college chapel. During the afternoon they strolled about the picturesque neighborhood where, during the revolutionary war, the famous battle of Princeton was fought, and did not return in time for church.

Fire at Rushville, Ills.
RUSHVILLE, Ills., March 22.—Fire destroyed E. A. Dodson's dry goods store in this city Saturday. His loss is \$5,500, insurance \$7,000. The stock of Jacob Maurer and John W. Lawler was damaged. The four buildings were owned by Ezra Jackson, whose insurance was \$7,000. The entire loss is about \$15,000.

Lawyer and Shipbuilder.
RICHMOND, Me., March 22.—James M. Hagar, a well known lawyer and shipbuilder, died at his home here yesterday, aged 75 years, from injuries received in being thrown down by a delivery team in Boston two weeks ago. He was interested in the development of railroads and other enterprises in the south and west.

TARIFF BILL DEBATE
It Commenced in the House Today and Ends Friday.

FORECAST OF SENATE'S WORK.
Anglo-American Arbitration Treaty—Appropriation Bills May Be Held Up by Democrats to Force Republicans to Declare Their Policy on the Tariff—Colonel Otis.

WASHINGTON, March 22.—The programme of the tariff debate, which opened in the house today, is simple but arduous. The house will sit from 10 o'clock in the morning until 11 o'clock at night, with a recess from 5 until 8 each day for dinner. The general debate will close Thursday night. Beginning Friday the bill will be read for amendment under the 5-minute rule until 3 o'clock on the following Wednesday, March 31, when the bill and pending amendments will be voted upon.

The debate will be opened by Mr. Dingley, the chairman of the ways and means, for the majority. Either Mr. Bailey of Texas, the selected leader of the minority, or Mr. McMillin of Tennessee will reply. The night sessions of the house will be given up to set speeches by new members who desire to get their views in the Congressional Record for the benefit of their constituents.

Senate Forecast for the Week.
WASHINGTON, March 22.—The senate will devote the major portion of the week to the consideration of the Anglo-American arbitration treaty. If the appropriation bills which have passed the house as they were agreed upon in the last session should be reported to the senate they will probably receive prompt attention. There is a possibility that these bills may not be taken up immediately in committee, owing to the absence of some committee members. It is also possible that when reported they may be somewhat changed, or if not changed in committee that they will be in the senate. The Democratic leaders may consider it wise party policy to hold the appropriation bills up until the Republican policy in the senate with reference to the tariff is developed. Senator Allison, chairman of the appropriations committee, will exert himself to secure speedy consideration of the bills.

The Democrats still insist on being allowed to fill all the places vacated on the committee by the retirement of Democratic senators, while the Republicans contend that the silver Republicans and the populists should be charged to the Democrats. Upon the adjustment of this difference the whole matter depends. Some way out of the difficulty ultimately will be found, but the opening has not yet presented itself.

COLONEL OTIS.
He Will Not Be Appointed Assistant Secretary of War.

WASHINGTON, March 22.—Colonel Harrison Gray Otis of California will not be assistant secretary of war. This conclusion was reached after a conversation in the cabinetroom between the president, Secretary of War Alger and Colonel Otis. The decision was reached not because Colonel Otis was opposed by the International Typographical union and not because he would have been unacceptable to Secretary Alger, but because of his geographical location. Had Colonel Otis been a resident of Washington, Oregon, Nevada—any state in fact that is not represented in President McKinley's cabinet—he would probably have been appointed to succeed Joseph B. Doe, the present assistant secretary of war, whose resignation has already been accepted.

Will Investigate Dr. Ruiz's Death.
WASHINGTON, March 22.—It is expected that the inquiry to be conducted into the causes leading up to the death of Dr. Ruiz, the naturalized American, in a Cuban prison will soon be commenced. The investigation will be conducted in Havana or in the place where Ruiz was imprisoned, and Consul General Lee will be present in person or will be represented by some one to look after the interests of the family of Dr. Ruiz.

For Internal Revenue Collector.
WASHINGTON, March 22.—Senator Fairbanks will recommend Ambrose E. Nowlin of Lawrenceburg, Dearborn county, for internal revenue collector for the eastern district of Indiana.

Government Troops Win.
MADRID, March 22.—Another battle has taken place in the province of Manila, Philippine islands. The government troops stormed the insurgents' lines in their trenches. The insurgents lost, it is stated, 300 killed and had many wounded. The government losses, killed and wounded, did not exceed 20.

Drowned at Carmi, Ills.
CARMI, Ills., March 22.—Jacob Ziegler, bookkeeper for the firm of Zeigler & Reinwald, was drowned while attempting to cross the Big Bill slough just north of this city.

CUBAN NEWS.

President of the Republic Reported Dead—Weyler Ill.

HAVANA, March 22.—It is reported from Camaguey that Salvador Cisneros, president of the Cuban republic, is dead; that Vice President Bartolome Maso succeeds him as president and that Dr. Capott, ex-professor of Havana University, will be appointed vice president.

CAPTAIN GENERAL WEYLER.
General Quintin Bandera has returned to Camaguey.

A large body of insurgents is concentrated near Sancti Spiritus, and a combined movement of Spanish troops against them is expected.

For the last few days Captain General Weyler has been greatly annoyed by a serious affection of the throat, with suppurations of the glands of the esophagus. On Wednesday, after a consultation of his physicians it was decided that for a time the patient must have absolute repose. As he suffered severely from dysentery when last in the field, his medical advisers will not allow him to return there for some time, on that account also.

In addition to the lad Nelson, several other American boys have arrived at Havana within the last few days, with the intention of joining the insurgent army, but the advice given them is to return to the United States.

Charles Scott, the American, against whom the military court at Guanabacoa preferred charges, which were subsequently dismissed, was released today. He will probably leave for the United States on Wednesday next.

MISSISSIPPI.
The Great River Reported Falling at Memphis—Broken Levees.

MEMPHIS, Tenn., March 22.—Last night for the first time in many weeks the Mississippi river was reported falling at Memphis, the gauge reading 37 feet. Several breaks in the levee are known to have occurred between Osceola, Ark., and Memphis, and the fall of the river here is attributed to these crevasses. The break at Sans Souci is widening, and the rush of water through the opening can be heard for miles. Three additional breaks, all near Sans Souci, were reported yesterday, and the suffering of the people in eastern Arkansas is greatly intensified.

A dispatch from Vicksburg says that the reported crevasse at Modoc, Ark., near Helena is confirmed by officers of the steamer State of Kansas and by dispatches received at Vicksburg. The levee at Modoc has been considered in a hopeless condition for several days. The water will run into White river very fast and will find its way back into the Mississippi in a day or two. Leveemen say the effect will be merely temporary, but a decline is reported of from one to four inches along the Coahoma county levee, where the struggle against the high water has been most desperate.

MARRIED.

Charles Carson and Miss Eliza Cain, both of the most popular people, of near Elizabethtown, were united in marriage at 9 o'clock Saturday night at the bride's home with Rev. F. H. Tormohlen tying the nuptial knot. This was Mr. Tormohlen's first job of the kind and it is said to have been a complete success.

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested any more than animals can. The Mount Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be eaten with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every suffering dyspeptic make a trial of it. Any druggist can supply it. Laxol is the best medicine for children. Doctors recommend it place of Castor Oil.

Card of Thanks.

We desire to sincerely thank all friends of the family who assisted in the last rites connected with the burial of our daughter Mattie. Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, headache, indigestion, constipation, dizziness, yield to Electric Bitters. Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition or hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by druggists, 75 cents. Hall's Family Pills are the best.

Death of Mrs. Seulke.

We are again called upon to state that the grim messenger has removed from our midst one of our most esteemed ladies in the person of Mrs. Henry Seulke, who breathed her last at 11 o'clock forenoon, March 22, 1897. She has been seriously ill—imposed with the disease for some two years but was not so dangerous till last Wednesday when she was compelled to take her to take her bed and had not been up since. Everything was done for her relief but of no avail.

Mrs. Seulke was born in Germany, June 6, 1825, which made her age seventy-one years, nine months and sixteen days at the time of her death. She came to this country in an early day. She was an affectionate mother whose place can not be filled. A husband and five sons, William H. Louis, Fred, Gus and George and Miss Doris, the latter at home, survive, who have the sincere sympathy of their many friends. She was an earnest member of the St. Paul's Protestant church.

DIED.

Miss Daisy Anthony died at 5 o'clock Saturday evening, March 20, 1897, with consumption after a lingering illness. Her parents have the sincerest sympathy of all.

Miss Nannie Weimer, died at noon Sunday March 21, 1897, with dropsy and asthma, at the home of her sister, Mrs. John Heins. She has been a patient sufferer. Her age was fifty-eight years.

This morning L. S. Woolls received a telegram announcing the death of his brother, Geo. W. Woolls, at Indianapolis. The deceased was born April 29, 1857. He was a printer by trade and worked in many of the larger offices in different parts of the country. He had many friends and acquaintances here. The remains will be brought here for interment.

POLITICAL BREVITIES.

Samuel P. Yenna has been recommended for postmaster at Shoals.

Rumors are renewed that Governor Brady will resign after the special session of the legislature is over whether he is elected United States Senator or not.

It is currently reported that Judge David L. Henry, of Terre Haute, will be appointed revenue collector for the western Indiana district.

Senator Fairbanks has announced that he will appoint A. E. Nowlin, of Lawrenceburg, for internal revenue collector for the eastern district of Indiana.

It seems probable that the postmaster at Madison may be moved before his term expires, on charges preferred by fellow democrats during the heat of the campaign.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at Rives Junction she was brought down with pneumonia, succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work and highly satisfactory in results." Trial bottle free at W. F. Peter's successor to J. H. Andrews & Co., Drug Store.

ODD CHARACTERS.

Some of the People Who Seek Fame Through Uncommon Channels.

"I think if all the cranks in this country were corralled," remarked the clerk in the treasury department, "and put under a shed somewhere it would require one bigger than all the buildings at the World's fair."

"Would there really be anybody to do the corraling?" inquired a pessimistic old party, who thinks there is none good—no, not one.

"As I was saying," continued the treasury clerk, "it would take the biggest shed on earth, and still there is a new kind. This time it is a man or woman who has been sending in 10 cents at a time as a contribution to the conscience fund, with a name signed in full, and there is no such name on the treasury books and never has been. I suppose it is merely some crank who thinks he or she will get that name in the papers and have that much fame out of it."

"That's silly enough," chipped in a postoffice inspector, "but I heard of the oddest chap on my last trip down south. You may not know, or, if you do, don't pay much attention to the fact, that there is a fine of \$10 for sending written matter through the mails under any name except 2 cents an ounce. Very likely you have sent enough stuff written on papers, books and so on to bankrupt you if you had the fines to pay, but Uncle Sam is easy, and I don't know of a case where anybody ever had to pay the fine. In this instance a man came into a certain office down south and gave the postmaster \$500, being the amount of fines he owed the government for violation of postage laws as far as he could recall them. He was a young man, and he stated that he had violated the law while in love with a girl to whom he sent papers and books occasionally, and, though he wrote to her every day, he couldn't let the others go without writing something on them. The postmaster didn't know how to act in the premises, and just what he would have done finally nobody knows, but the next day the young man's father came to the postmaster and told him that his son had been jailed by his sweetheart, and it had crazed him. This was an explanation which satisfied the official, and the money was returned."

"Ugh!" grunted the pessimistic old party, in no wise affected by the pathos of the little story. "Only a crazy person or an idiot would ever think of settling square with Uncle Sam for a little bunko game like that."—Washington Star.

MARCH HAS ITS VIOLETS.

And There is a Bright and Cheerful Side to Everything.

Edward W. Bok, under the title of "The Odor of Spring Violets," writes most forcibly in The Ladies' Home Journal on the theme that there is a bright side to everything—even to March, the most disagreeable month of the year, for it has its spring violets. "It is true," he writes, "that it is difficult sometimes to see the bright side of sorrow, sickness and death. And yet there is distinctly a bright side. No sorrow comes to us without a reason. We never know our friends until sorrow or illness comes to us. We never know what loving kindness and thoughtfulness mean until we stand in need of them, and our hearts seem to beat against the walls of a cold, merciless world. We learn something from every grief and from each pain which comes to us. We learn to distinguish between friends, and what more priceless possession is there in the whole range of knowledge than this? What develops us more than trouble? Virtues of heart, which we never dreamed of as existing within us, reveal themselves when we are sorely tried. That is why sorrow and trials are given us—not to give pain, but to develop us, to better equip us for something unknown which lies in the future, and which we could not meet or understand unless we had first gone through certain experiences.

"We are far too apt to regard actual blessings as calamities, to look upon the dark side of things. Some sorrow comes to us, and we rebel. It never occurs to us that perhaps we need the experience which sorrow alone can give. Illness comes, and we fret. But we cannot always be well. Ailments are very often given to us to make our appreciation of good health the keener. God has an aim, a direct purpose, in everything he does. His blessings come in different forms. Nor are these forms always such as we would choose. Lessons can be more effectively taught in innumerable cases through sorrow than through pleasure. We should never know what a pure, beautiful color white is if we did not have black to bring out the contrast. We want only pleasure in our lives. When sorrow comes, we rebel and refuse to recognize it for what it so often is—a blessing in disguise. We cannot always have it June. There must be March. Yet March has its spring violets."

HOBBS

Challenge to the Citizens of Seymour Which Appeared in this Paper Saturday Creates

TREMENDOUS SENSATION.

The Public Seem Thoroughly Aroused.

A General Eagerness to Know What the Outcome of this Affair Will be is Plainly Noticeable Amongst Many of Our Readers.

JULIUS HOBBS, M. D.

As a result of the announcement made by this paper Saturday, that a free package of Dr. Hobbs' Spargus Kidney Pills would be given away to any of our readers who would call on Wm. F. Peter, successor to J. H. Andrews & Co., Druggist and Apothecary, Seymour Ind., tomorrow, an intense interest has been awakened in this distribution.

A large number of people called Saturday evening and this morning to make inquiries about the free samples of this wonderful medicine to be given away tomorrow, which shows what general interest is taken by the public in the test now being given by Dr. Hobbs of his discovery for the cure of all kidney ailments.

Much to our gratification, a number of lady callers have shown an unusual interest in this great distribution. "Can it be possible," said a man who called Saturday, "that the advancement in the science of medicine has at last reached a climax for poor sufferers like myself."

"I am going to say one thing at any rate. The owners of this medicine certainly have faith in it, and they are going about it in an honest straightforward manner. Just this thing alone gives me confidence and strong hope that I shall again be a strong man."

Another caller Saturday—a lady—said: "I live several miles away from Seymour but I am going to get a sample of this kidney medicine for my husband. He has been a sufferer from kidney diseases for many years."

"We have spent thousands of dollars with the best doctors we could hear of North and South, but at the best he has

received only temporary relief." "Dr. Hobbs' announcement that he has made a discovery which will cure and build up the kidneys, and his offer to prove it by the giving away of a free package, is quite a novelty to me, as heretofore it has been 'pay' whether the medicine did any good or not."

"We are going to give this remedy a good fair trial and I hope that others, suffering as my husband is, will hear of it and accept the kind and generous offer which Dr. Hobbs makes."

It is expected that tomorrow there will be a great rush of applicants for a free package of Dr. Hobbs' Spargus Kidney Pills. But no matter what the demand is Wm. F. Peter, successor to J. H. Andrews & Co., Druggist and Apothecary, is well prepared to meet it.

"All those living in Seymour or any town outside who apply at our store tomorrow in person or write for a sample will be welcome, and not only a

FREE SAMPLE BOX of this wonderful medicine will be given or sent to each applicant, but also Dr. Hobbs' little book, which in a concise way, treats on kidney troubles.

This great free distribution ends tomorrow evening at 9 o'clock, so that all who wish to avail themselves of Dr. Hobbs' generous offer should call tomorrow or write, or they will miss the opportunity.

John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

The Millionaire's Eagle Eye.

Another story illustrative of the daily life of a Chicago millionaire may help to explain why some people have more money than others.

This millionaire invited a visitor from another city to meet him at a certain hour and accompany him to the stockyards, where he has large interests. The millionaire rode up in a sidecar buggy somewhat the worse for mud and wear, drawn by a shaggy but active horse. He explained that before starting for the yards he would have to go to one of the large banks down town, as he was on the board which regulated loans, and he had to pass on an application for a loan of \$500,000.

They stopped in front of the bank, and the rich man hurried in and remained several minutes. He came out on a run, and they started rattledly bang for the stockyards and Packingtown.

When they arrived and were entering the packing house, they saw an old man sorting out into barrels a heap of bones and fatty remnants. The bones were trimmed and put into one barrel and the flesh and fat into another barrel. The millionaire owner of the place walked over to the workman and began asking questions. Then he drew off his coat, rolled back his shirt sleeves to the shoulder and began rummaging among the bones. He found several which had not been properly stripped, and the workman received a scolding which he will remember all his life.

The stripping of those bones was just as important as the loaning of \$500,000.—Chicago Record.

Riding on a Sextuplet.

Says the Washington Times: "The sensation of riding on a sextuplet or quintuplet when passing a man for record is regarded as decidedly novel. J. F. Starbuck, the professional rider who accompanied P. J. Berlo on his southern record trip to act as pacesetter, was recently asked what he thought of pacesetting on these styles of wheels. He replied: 'Think? Why, we never have time to think. All you know is that you have got to pedal for all you are worth and swing with the crowd. If you don't, you are liable to be thrown off. The man in front has a hard position to hold, as he is absolutely unable to times to see the track, owing to the air pressure and the speed at which the machine is traveling. We had a fall once and were so nervous for days that we were gayer unmercifully by other riders.'"

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Seymour Republican, and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y.
